Make employee transitions easier to coordinate.

Bring owners, prerequisites and service requests into a reviewed journey.

Joiners, movers and leavers cross team boundaries. A checklist alone may not show which approval, manual step or access action is still outstanding.

What changes for your team

- See who owns each step.
- Keep approval and effective-time conditions explicit.
- Follow related service requests and managed-access removal.

Explore the workflow

- Versioned Joiner, Mover and Leaver templates
- Manual, catalog and managed-access-removal steps
- Independent review and retained case history

Explore Vision at https://nanox.tv and arrange a demonstration around one real workflow.

Explore Nano X at nanox.tv or ask your representative for a scoped walkthrough.

Availability depends on your release, permissions, enabled modules and connection setup. Verify the exact workflow before commitment.
